Always and forever / Burned in my hands / The rhythm
of the trigger at home within my hands / It hurts me to
see you like this / Just one question / How does it feel /
Did you ever stop to think / That maybe you're killing
me / How I wish that was true / I now wish you would
end me / Always and forever / She swallowed / Choked
/ Broke her neck as she screamed "never" / This ends
right here / This ends right now / You're not going
home looking like that / Take one for the road / Every
second you wasted on breathing / You could have
swallowed the blood in your mouth and said you were
sorry / If we make it out alive I swear I'll kill myself first /
Why would I hurt you? / This will be over soon / Faster
than it would take for 6 bullets to reach the back of your
skull / Grind my teeth until my gums bleed / Like a bad
dream / I wait simply to speak to myself in my sleep /
Just like a bad dream / She burnt out faster than I could
have ever imagined / Just like a bad dream / Always
and forever
