How tired are you now / Can you feel it burning / You
would have thought by now / I would have ended my
life long ago / For what it's worth, it's really not / For
what it is worth / You're already dead / You know it and
you love it / Raptures and explosions / Movements
slowing into still life / That vacant look in your eye / I've
seen it before / In a mirror cracked by anger / What
stands frozen before me / once saw myself / And the
image broke / By my hands calloused and bruised /
Shards of a reflection of self abuse / Embedded in the
knuckles of an overanalyzed dream / I no longer sleep
to keep from waking up / I've come to the realization
that no matter how hard I try I'm only dying / You're
only dying / You are dying / You, you're waking up to do
this all over again
