It was a May full moon
We parked the car
And I sang you a song I wrote on my guitar
Oh I have kissed
Many times since then
But that first one is special
One you don't forget
If I had asked you then you probably took my ring
But time and distance have a way
Of changing things

And sometime I wonder
What it would happen like
If we had wandered
The same path in life
Tonight if your out there
Looking up at the same moon
Girl I hope
That your trail in life
Has been good to you

College days
Frat house nights
You were more then just a bunch of rowdy friend of
mine
You made leaving home
Not as hard to bare
Yea we swore we'd stick together
Til we were in rocking chairs
We all kind of scattered
Getting our lives in gear
The phone called went from weeks to months
To I ain't hear in years
Sometime I wonder
What it would happen like
If we had wandered
The same paths in life
Would we still smoke cigars?
Yea when the wild cat beat OU
Oh friend I hope that your trail in life
Has been good to you

The day I was born
They said you cried
When you signed those papers
And kissed me good-bye
Too young to know
How to raise me up
So you let me go and start this world in this house of
love
I was 12 years old when daddy sat me down
And told me of a brave young girl
That I should know about

Sometimes I wonder
What it would happen like
If we had wondered
The same path in life
I think I would make you proud
Of the boy you never knew
God I hope
That your trail in life
Has been good to you
And some day I know
This old trail in life
Will wind back to you
