[verse 1]

Look at the bommmmb!
No mo' a soldier! Baby! Baby!
A shirt with my shadow is crazy
I stay ya! Banana comb makes me a playa
So get smart with my rhyme
He wants and I want to be my time
Then roll out, because the gangsters are shootin'
Damn, my bottles are bubblin'
I got niggaz like outlaws suicide radical
Apparatus chrome and relaxin' remedies
My rap has turned into a gun
Like McDonald for you this's fun
Take it! Don't let him escape!
Come on nigga face-to-face
[* bullets fallin' to the ground *]

[chorus]

The new General! (Come on! Respect my crew)
The new General! (T.B.S. THUG!)

The new General! (Come on! Respect my crew)
The new General! (What do we need?)

[verse 2]

Some fo'-fo' caliber bullets
On the way we let some skeletons
Sucker nigga, stupid nigga and dead nigga
Respect the new General bigger
Respect our crew with that glock
We got that Tech and that Taurus on the block
I'll blow your niggaz like a bull flock
Biggie-Biggie! I'mma man of many skills
Come on boyyyyy! I have not listened to it yet
Hold a black flag on private jet
Break skulls and seen the bulletproof-vest
It's so!

[* short bursts *] [* heavy-weapons *]

[chorus]

The new General! (Come on! Respect my crew)
The new General! (T.B.S. THUG!)

[verse 3]

A great man thinkin' of enterin' the shootin' me
Thinkin' of me down, thinkin' of me steal
I sell drugs in Asia, I'm so sweet, I'm so real
Bentley is armored like a tank
Don't cross my path or you'll feel a pain
I have everythin' wired, Rampage will take the bank
In high school I've ever shot at
Now, damn it go around stranglin' them
Walk around shootin' and stabbin' them
They say you're crazer
I'm in Las Vegas like a playa
I'll sweep my way with cables and Ak's
You're shakin' hoping for better days
[* gunfire *]

[chorus]

The new General! (Come on! Respect my crew)
The new General! (T. B. S. THUG!)

The new General! (Come on! Respect my crew!)
The new General! (T.B.S. THUG!)

[talkin']

Go! go! go!
We got 6 packages, blue magic and goat's eyez
"The Gangster" would have knelt to me...
