[Big Sound singin']

I make my money, I'm living in a night club

[bells and beats]

[Big Sound talkin'] Yeah, come out with me!

[Big Sound]

Open the door, the Big Sound is comin'

I'm not gunnin'

Just make space on the dance floor

Nigga, you was the main attraction, now no more

Place in front of me that bottle of Hennessy

No mo' sex through telepathy

Put C-4 this drink, put powder this drink

I'll make a proposal, respond without thinkin'

Let me play dice in my room?

"It shows your skill, opens his mouth, holdin' the gun"

You got undergraduate suck, know to be fun

[chorus - Big Sound]

This's the feast of cecular

Here at the club, here at the club

This's the feast of cecular

Mardi Gras is similar, Carnival in Rio is similar

Girls were talkin' about who has the Rap Bigga

I'll make a bitches, Kelly and Quita

[Big Sound]

Sittin' in the back of the club I feel at home

Now, this's my domain, my comfort zone

This's all so good, tomorrow I'm in the magazine

My sound broke into the Brooklyn, the Bronx and Queens

This's no dream, baby, already tasted my cream?

Yes! Huh, you're enjoyin' my way

This beer round I paid

Now, because of the big rain of Tanguay

Wow, Look at those girls in the back

They are so stuck, is similar to that

Clip of Britney, the party is outta control

You know, my discipline will no let you grow

Party in clubs, you feel this smell?

Damn, now niggaz is copyin' my style

[chorus - Big Sound]

This's the feast of cecular
Here at the club, here at the club
This's the feast of cecular
Mardi Gras is similar, Carnival in Rio is similar
Girls were talkin' about who has the Rap Bigga
I'll make a bitches, Kelly and Quita

{*singin'*} I make my money, I'm living in a night club

[Big Sound]

Serious, I never liked the 'Pac sound
I'm Big Sound, "El Grand Sound"
Fuck the Lil 'Wayne sound, fuck the Akon sound
B-Sound like the 50 sound
The best is the Biggie Smallz sound
Damn, now I invaded this town
Shit, I'm gonna get you down
Motherfucka doesn't get there around
Come soon to the club
Come soon to the side of the "Big Sound Thug"
Yeah, we're ready to put everything down
When we leave here we're almost fallin'
With his head sunk in Johnnie "Walking"
Take me straight home, girl, I gave you my phone?
Tomorrow is lil' party here at home
Bring some friends, don't want to be alone
Send to catch you with a Cherokee
This's the style! This's the style! ... Shit!

[bells and beats]
