[Outro & (Big Sound)]

Ladies and gentleman

It's time for Big Sound!

(We gonna rock the party)

[Big Sound]

Benz stopped in my garage

So keep singin' damn

Money in the account fallin'

Yea, so keep on talkin'

So keep singin' damn

Girl takin' off and puttin' the jeans

But now I have nightmares, just dreams

So keep singin' damn

[Big Sound & (woman voice)]

Today it makes sense some things

It has the same meaning in walkin' in the rain

Yeah girl, but don't feel that pain

Today you call me soldier

(When I want to cry around your shoulder)

I'll give you my shoulder

I'm the boss now

I'mma playa now

This song will play mo' than "Jump Around"

My songs are burnin'

Yea nigga now I'm learnin'

I'm burstin', I'm workin'

Cause baby I'm pimpin', so keep singin'

[Big Sound]

Benz stopped in my garage

So keep singin' damn

Money in the account fallin'

Yea, so keep on talkin'

So keep singin' damn

Girl takin' off and puttin' the jeans

But now I have nightmares, just dreams

So keep singin' damn

[Big Sound]

Some stupid niggas will pay
People not lookin' for my way
Yea, flyin' high in the sky
All now singin' on the dance floor
On one hand the 22's and the other at fo' fo'
I'm here playin'
"We just sittin here tryin' to win"
No need to talk again, need oxygen?
Overflows a Hennessy, where's the glass of gin
Every day she drinks a dose of Tanguray
Face to face, no way to escape
My future is in store
This's my thug life? This is the core
Now, I'm not slippin', so I got to keep singin'

[Big Sound]
Benz stopped in my garage
So keep singin' damn
Money in the account fallin'
Yea, so keep on talkin'
So keep singin' damn
Girl takin' off and puttin' the jeans
But now I have nightmares, just dreams
So keep singin' damn

[Big Sound]
You don't lose by waitin'
The girls are climbin' the wall
Hoo yeah, and they will fall
Fight or Run?
His gang run, run, run, his moms run, run, run
Life is turnin' me into a thug
Now you see me comin' into your club
Where his gang now
I got to stay, don't see anyone around
Me thinks not nicotine, I'm clean
I'm not here to sin, you know all about me
A stop, I'm losin' air
Damn, ain't no need to be tripping
so I got to keep singin'

[Big Sound talkin']
Com'on man
Now you notice me
