[Big Sound]

My favorite color is black
In the streets, they call me B-Sound
Always jumpin' around, always flyin' around
I'll leave you in shock
Shakin' his head in my coupe
No one takes the eye of my foot
Is this new shoe? Haha
You'll choke with my new coke
Look, listen, nigga, is my stroke
Paper and friend don't mix like two dicks and no pussy
I'm in a canyon, then push me
Niggas fryin' as if they were chips
They can come with you 67 bitches
They gave me super-powers of a soldier
Then I knead you and put you in a folder
If you ain't got the power say hell no
I earn paper as the creator of the velcro

[Big Sound]

I got super-powers
I got business in the black market, I got money
I don't got to be funny
I got some bitches
Say that my gang has riches
I got to get you
You can mess up my business too

[Big Sound]

Call me too "El Grand Sound"
Let's put it all down
Shout now, Hey!, shake it all now
It's only a warnin', I'm callin'
Are all fallin'
The Hennessy drinks and Johnnie "Walking"
Big Sound, the striker
Damn, she is suckin' my dick
It's been how many weeks?
Shake that ass
We gonna rock the party, listen to the blast
Now, we're up
Now, to all my gang, word up

[Big Sound]
I got super-powers
I got business in the black market, I got money
I don't got to be funny
I got some bitches
Say that my gang has riches
I got to get you
You can mess up my business too

[Big Sound]
What we're doing nigga?
In making it a killer?
Huh, What we're doing nigga?
Making us the bigger!
What we're doing nigga?
It's Big, it's Grand, hands up nigga!

[Big Sound]
I got super-powers
I got business in the black market, I got money
I don't got to be funny
I got some bitches
Say that my gang has riches
I got to get you
You can mess up my business too

[Big Sound]

We're so strikin', move!
We're get the money, move! move! move!
