

Dear Elizabeth "The Answer For Cancer"

Visit "[The Answer For Cancer](#)" on MotoLyrics.com

I thought this just started
But I'm already tired
Minute by minute
Hour by hour
I realize I've expired

Is this what god wanted
I'm not too sure

But up there with him
Is what I might prefer
Even though I'm just dying to live
I know inside I'm living to die

Every dead glance
Every last chance
I will keep on dying
Every person missed
Every cheek kissed
I will not stop trying

But I have love on my side
And of that I am sure
I won't succumb
To this embedded cancer
