Well I know that I'm weak at best,
at times, but I care
about those things that he doesn't care,
to see, but i can

So tell me what he thinks of you
and do you stare when he's in the room?
I know my heart reeks of cheap perfume
just say that you need it, I know that you need it
so tell me does he kiss you like i do
he probably f*cked you just like i do
is this boy in love with you?
just say that you need it, I know that you need it
(Are you ready) sucker?
everyone move, get out the way
cause this towns outta whiskey
and there ain't room for two

Well I know that I'm weak at best,
at times, but I care
about those things that he doesn't care,
to see, but i can

Almost Feeling, Now Numb
Lack of feeling, minimal bleeding
please know that I love you
but I have nothing to look forward too
(so) everyday is tommorow (x6)
