He'll stare you right in the eyes
And tell you all his lies
He'll tuck you in at night
Something doesn't sit just right

How could so many be so blind
The Devil's always...

Left left
Left right left
Left left
Left right left

His sympathetic face
Not one hair out of place
It's all mirrors and smoke
He's laughing at his own jokes
How could so many be so blind
When they're the punch line

Left left
Left right left
Left left
Left right left

The Devil's always in disguise
The Devil's always in disguise

We've got to open up our eyes
The Devil's always in disguise

Left left
Left right left
Left left
Left right left

The fate of this world
Is in the hands of the dirty rich
Born bred and raised almighty
Can do no wrong as long as the faith
They create supports their hate
Their ideology their insanity

After all we are the people
We are free to choose free to assemble
We are free to react and to resist
We are free to unify and join together
As power is in numbers
After all we are the people
