On your porch
There's nothing better than the heat from this
morning sun
Daylight creeps on
Waking up shadows

On your back... you told me
Things you swore you'd never tell
Every word your lips release
You know you turn me on

There's so much I wanna do with you
You know you make me wanna stay
(Can I come inside with you)
There's so much I wanna do with you
Does that work for you

Taste your lips
There's nothing better than a kiss from the one you
love
Can't resist...
I give myself to you
I give myself to you

Tie you up
Pull out the diamonds
Pull out the snakes

Whatever you want
You know you turn me on

There's so much I wanna do with you
You know you make me wanna stay
(Can I come inside with you)
There's so much I wanna do with you
Does that work for you

Just get comfortable
And close your eyes
As they disappear inside your head
And you arch your back
And you start to scream

There's so much I wanna do with you
You know you make me wanna stay
(Can I come inside with you)
There's so much I wanna do with you
Does that work for you

work for you ... work for you... Does that work for
you
