We stand in a cold room
And turn off the light
Pull the curtains low
And wait for the night
When the sun dips down
Its our turn to scream
And watch the dream twisting over and over again

No, its not enough to face it alone
To wander far and never go home
To find yourself beneath a darker sky
To touch a heart just to watch it die

But you don't stop and I can't stop you from taking what
you need
And you can't stop and you can't stop me
I'll bite until it bleeds

Oh my god!
This face looks cold
This face looks cruel in the reflection
And eyes like mirrors
Hammer stakes in hearts in my direction
Up from the ground and ready to move
With signs of crosses to carry you
And speaking of ghosts, we both know them well
You'll be one tomorrow while I will be in hell

The moment came like a flash of light
With a will possessed on the point of a knife
Sunk hard and deep until surely killed
To love you even when the heart is still

And you don't stop and I can't stop you from doing
what you feel
And you can't stop and I can't save you
This time the hell is real

Oh my god!
This face looks cold
This face looks cruel in the reflection
And eyes like mirrors

Hammer stakes in hearts in my direction
