stuck in a world of water and glass, ooh ooh  
of recycled air and years that have passed, ooh ooh

no one's going to find us here  
they don't know to look  
the rescue is coming  
(x2)

~

we took away to make our home's  
now nothing remains  
from all of our hunger  
we gave in to our need  
to own  
so the tide in it's rage, has taken us under

(chorus %)  
we are waiting to be found  
at the bottom of the earth  
and frequently we send a melody  
to the surface of the world  
where our hope of notice lives  
from the perfect place for all humanity  
in the valley of the deep

~

death is a stranger, with tricks up his sleeve's, ooh  
and we always need, but we'll never receive, ooh

no one's gonna find us here  
they don't know to look  
the rescue is coming  
(x2)

I wanted to see the sky, that is where i used to pray  
where i watched the sun come up and evening turn to-  
day, it never seems to find this place

this black is so permanently \_\_\_\_? \_\_\_\_?
