"Quiet Like Sirens"

Visit "[Quiet Like Sirens](#)" on MotoLyrics.com

Focus on the background
Focus on the truth
Waiting for the signals
Wait, nobody move

Give it just a moment
Listen to the silence
There's a paralyzing quiet like sirens
You can forget, leave him here like this

I don't want to stand here
Don't you understand it's feeding on fear
Caught red-handed
Gotta get everybody out right now

Breathe until it's over
Maybe make it through
Like water through my fingers
There's nothing I can do

Give it just a moment
Listen to the silence
There's a paralyzing quiet like sirens
You can forget, leave him here like this

I don't want to stand here
Don't you understand it's feeding on fear
Caught red-handed
Gotta get everybody out right now

Give it just a moment
Listen to the silence
There's a paralyzing quiet like sirens
You can forget, leave him here like this

I don't want to stand here
Don't you understand it's feeding on fear
Caught red-handed
Gotta get everybody out right now
