Can't say that I'm proud of all I done
Least I never tried to hurt no one
Things didn't work exactly like we thought
And lets bury up to the bar, we'll hide from god
Man you look like you've seen better days
Yea I guess I probably look the same
Couple of wrong back we've must've got lost
So meet me at the bar we'll hide from god
Yea bury up to the bar we'll hide from god

The book says we're all equal
And I believe it too
So if you're feeling that way tonight
I'll hide from god with you
Yea if you're feeling that way tonight
I'll hide from god with you

Don't need no tattoos of where I from
One look in your eyes and I know just what I've done
Don't come looking for me cause I ain't lost
Just meet at the bar we'll hide from god
Yea bury up to the bar we'll hide from god

The book says we're all equal
And I believe it too
So if you're feeling that way tonight
I'll hide from god with you
Yea if you're feeling that way tonight
I'll hide from god with you
Yea if you're feeling that way tonight
Oh if you're feeling that way tonight

The book says we're all equal
And I believe it too
So if you're feeling that way tonight
I'll hide from god with you
Yea if you're feeling that way tonight

I guess things didn't work out like we planned
