

## Death Cab For Cutie "Two Cars"

Visit "[Two Cars](#)" on [MotoLyrics.com](https://MotoLyrics.com)

[Dogs barking]

Try to scrape it off the thought of skin against skin  
Move it from the front to back and start it go again

With the DIGRESSION and time we will multiply  
And I've got more mouths to feed than I could ever  
Fit in this auto  
You go have a good time  
Bring back stories  
Cause I will stay behind

So punch the clock two months of up and I am stuck  
down  
Against the floor the heat rises out and leaves town

With the DIGRESSION and time we will multiply  
Till I've got more mouths to feed than I could ever  
Fit in this auto  
You go have a good time  
Bring back stories  
Cause I will stay behind

And that's the story of a boy who tried to play it cool  
He found it hard to keep it up when you were changing  
rules

With the DIGRESSION and time we will multiply  
Till I've got more mouths to feed than I can ever  
Fit in this auto  
You go have a good time  
Bring back stories  
Cause I will stay behind
