Those starry nights... that we have spent there  
We should've realized forever was so long  
And telling time that I was wrong  
You should've taken better care  
And all that we have seen... could not prepare...  
Us for the day... that you must be saved  
What you did not say  
Made it harder to watch over you  
The only thing... that I had left...  
Was the hopes... of your survival  
But now all hopes are lost  
Your life... is one... to be remembered  
This is the one... thing I could...  
Never have imagined  
The thought of you... would destroy me...  
Beyond all I could bare.  
Loss... makes me realize that I can live with the  
Hope... of once again seeing you in my  
Dreams... are the only thing that makes you come to  
Life will always be there no matter how long you've  
been  
Gone  
Those starry nights... that we have spent there  
We should've realized forever was so long  
And telling time that I was wrong  
You should've taken better care
