I'm breaking my back,
I'm pouring my heart out for you. Whoa-oh.
You shouldn't have let me that night.
And I don't wanna say it with conviction.
I just wanna counter your predictions.
I'm breaking up on the inside.

Sway with me as we captivate this moment.
Come away with me. We'll create a constellation.
Won't you sway with me?
And we'll let the moon and starlight guide our way.
Sway. Sway.

I'm starting to crack
While running in circles around you.
Whoa-oh.
You shouldn't have let me that night.
And I don't wanna stand and plan conviction.
I just wanna counter your predictions.
I'm breaking up on the inside.

Sway with me as we captivate this moment.
Come away with me. We'll create a constellation.
Won't you sway with me?
And we'll let the moon and starlight guide our way.
Sway. Sway.

I'll search this whole town just for you.
Let's tear it down and make it new.

(Sway with me as we captivate this moment.
Come away with me. We'll create a constellation.)
Sway with me as we captivate this moment.
Come away with me. We'll create a constellation.
Won't you sway with me?
And we'll let the moon and starlight guide our way.

I'll search this whole town just for you.
