Life's a gamble - it's all how you play  
The cards that you're dealt - the chances that you take  
Life's a gamble - it's all what you roll  
You're in to win it - or you just go with the flow  
Take a chance - or you'll never see  
All that you could've done - instead your life's a dream  
Take a chance - do what you like  
Do what you gotta do - you only get one life  
Sometimes you lose - sometimes you win  
Sometimes you do what's right - other times you sin  
Live and learn - that's the chance you take  
When you fuck up - you got to learn from your mistakes  
Life's a gamble - it's all how you play  
The cards that you're dealt - the chances that you take  
Life's a gamble - it's all what you roll  
You're in to win it - or you just go with the flow
