Tired and pissed  
had enough of this bullshit but it's  
too easy to quit my friend  
so I smile and deal with it  
Tired of being broke  
People thinking of my life as a joke  
this is the path I chose  
where it leads nobody knows  
it's made me stronger as time pushes on  
I still grow older but my heard carries on  
WE CARRY ON!  
We'll carry on until the end of the road  
no destination we go with the flow  
I learned to live life and take it as it comes  
right around the corner your number could be up!  
And if tonight is the night  
I'll have lived a full life  
and if tonight is the night  
everything will be all right!  
tired and pissed  
had enough of this bullshit but it's  
too easy to quit my friend  
so I smile and deal with it!  
feels like I'm downing  
everyday's a fight to keep my  
head above the water and save my own life!
