Here I go again,  
was this all for nothing,  
there my mind goes again,  
I lost it all for nothing  
How much longer must we wait to try and make the  
great escape?  
Turned my back to this world of lies,  
opened my mind and that was opened my eyes,  
the time is now and we are here!  
You're wasting time when there's no time to waste.  
full speed ahead! Life's in your face

and when you open your eyes you've got to realize  
your search is over now  
the time is now and we are here!  
Here I go again, here I go again!  
Was this all for nothing?  
There my mind goes again, I lost it all for nothing.  
You're wasting time when there's no time to waste  
full speed ahead, right in your face!
