Almost dead  
But still struggling  
Caught in the web  
Trying to get free

This is not hell  
It's all much worse  
Man made heaven  
And all is cursed

Nothing is  
As it seems  
Nothing is  
As it reads

Took the easiest route  
Strayed away from my path  
Should've known this  
Should've taken left

Forced to believe  
You've bled on your knees  
Forced to swallow  
And you swallowed it whole

Nothing is  
As it seems  
Nothing is  
As it reads

Took the easiest route  
Strayed away from my path  
Should've known this  
Should've taken left

Forced to believe  
You've bled on your knees  
Forced to swallow  
And you swallowed it whole

Almost dead

But still struggling  
Caught in the web  
Trying to get free

Nothing is  
As it seems  
Nothing is  
As it reads  
Nothing is  
As it seems  
Nothing is

Took the easiest route  
Strayed away from my path  
Should've known this  
Should've taken left

Forced to believe  
You've bled on your knees  
Forced to swallow  
And you swallowed it whole

Almost dead  
But still struggling  
Caught in the web  
Trying to get free

This is not hell  
It's all much worse  
Man made heaven  
And all is cursed
