Bienvenue Infinifall
Wir sind zeroline
Yeehaw, we're infected

Scream out anytime
Too late, payment accepted
You are mine

We are the losing class
Idolaters and Iconoclasts
Amateur enthusiasts
Bloody knees and skin grafts

We are the losing kind
Lost ourselves and lost our minds
Desolate and anodyne
but otherwise we're doing fine

Wanna be buried in a spaceship
Wanna burn up in the sun
Wanna turn the skies red
Set fire to everyone

Gonna be buried in the gutter
Gonna be glaring at the stars
Remember every word I stutter
Because, baby, I'm a superstar.

We are the losing class
Idolaters and Iconoclasts
Amateur enthusiasts
Bloody knees and skin grafts

We are the losing kind
Lost ourselves and lost our minds
Desolate and anodyne
but otherwise we're doing fine

I'm a superstar

I'm a superstar

You fuck me 'cos I work too hard
and you fuck me 'cos I move so fast
You fuck me 'cos I fall apart

You fuck me 'cos I'm working class

We are the losing class
Idolaters and Iconoclasts
Amateur enthusiasts
Bloody knees and skin grafts

We are the losing kind
Lost ourselves and lost our minds
Desolate and anodyne
but otherwise we're doing fine
