

Deathboy "Music To Crash Cars To"

Visit "[Music To Crash Cars To](#)" on MotoLyrics.com

Cold, wet and black and outside - just like I'm
Cold, red and fast inside - and you can
Never go back, I tried - And it's a
Long walk to suicide

Doesn't matter what you say
I can feel another way
You can't take my music to crash cars to
Keep me breathing - make me move
Stick the needle in the groove
I'll always have my music to crash cars to

Too little, too late, too low - when I
Get my head back together - you know I have to
Find another way to show - I can

Still remember the way to go.

Doesn't matter what you say
I can feel another way
You can't take my music to crash cars to
Keep me breathing - make me move
Stick the needle in the groove
I'll always have my music to crash cars to

Let it rush, don't push - fall back and believe,
Let it go, you know - you will only receive
You know me? You know you? You know way back
when...
'should have killed myself back then.
