Traveled o'er 1000 spring times
Across many distant lands
Patiently, she followed me everywhere
The first love I ever had

Shipwrecked on a secret island
South where the warm winds blow
There we thought, we'd laugh forever
Telling stories by the late two moon glow

Lost child astronaut
Crash at the speed of light and spin me off
In my dragonfly, without a care
Blues child, forgotten child, I'll take you there

Darkness and space surrounding
Bending the light that fell my way
Stuck at the edge of the galaxy
Whose radio waves, they signal so faint

Lost child astronaut
Crash at the speed of light and spin me off
In my dragonfly, without a care
Blues child, forgotten child, I'll take you there
