What happened to you and all of your dreams. your life is falling apart at the seams. i tried to be the thread but you wouldn't let me. now you're on your fucking own. thought you were so much better than me. then you got hit with reality. you're more of a fuck up than i'll ever be. one day you'll wake up, then you will see. i'm ashamed. i'm trying to forget your name. let you in with open arms. bleed you out with blood and scars. things they happen oh so fast. life it shatters just like glass. you woke up one morning and you're on your ass. now you're on your fucking own. thought you were so much better than me. then you got hit with reality. you're more of a fuck up then i'll ever be. one day you'll wake up, then you will see. i'm ashamed. i'm trying to forget your name. let you in with open arms. bleed you out with blood and scars. OUT! GET OUT! i'm in pain. i'm trying to forget your name. let you in with open arms. bleed you out with blood and scars
