Two-sided coin, the same fucking beast. two
representative of secret societies. two different parties
but they're really the same. why do we play this losers
game. heads they win, tails we lose. two-sided coin and
we play the game of fools. two part lie fall into line. vote
for either one it doesn't fucking matter. they've got
the sane goals to rule the fucking world. heads they
win, tails we lose. two-sided coin and we play the game
of fools. they make you believe that you have a voice.
this illusion of freedom is where you find your pride.
when will you see it's all a fucking lie. heads they win,
tails we lose. two-sided coin and we play the game of
fools
