Take a look around, get what you've found  
Breaking all the rules that's was coming down  
Seeking ever more, all is just like none  
One by one the boundaries come to overthrown  
There is no respect, no one can prevent  
Leading on the human race towards a blackened end  
Shout to revolution, seems the one solution  
Set the world on fire for a total destruction

[Solo Rick]

[Chorus:]

Lies and you will be rewarded  
Spongers of society  
Against every moral law  
It's the rule of life  
Put to die the world  
Extreme demise  
Against every moral law  
The last defilement

[Solo Luigi]

Feeding all needs, planting hate's seeds  
Cared wounds return now to bleed  
Grip the power tight, are you satisfied?  
Fame it's a common sickness that devours mind  
Growing misery, reveal the decay  
Lies turned truth will not back the same again  
No one opposition, victim of contradiction  
Let the world to go through a sure termination

[Chorus]

[Solo Christian]
