Cain is my name coming here to play a game
I have the needle lets show your veins
You can dream away an do what ever you like
But I know you travel alone to the valley of death
Cain is my name an everybody hates my game

You will follow me my friend
You will stay here til the end
You will follow me my friend

Panic you try to hold you down
But I lift you up little higher
Suddenly you feel the breeze in you morrow
You will leave your shell I wish you the best and well
Cain is my name I'm the bringer of pain

You will follow me my friend
You will stay here till the end
You will follow me my friend
