Ten years in universe  
Allied in credulous sympathy  
Ten years of confidence  
The world is getting back to shape again

Ten years of evil birth  
Constructing for destruction  
Ten years unholiness  
Then the deathstar's back  
And the empire strikes

The darkside's back  
The empire  
The darkside's back

The last few years has been good to you my friend,  
Now the napalm is falling like rain again,  
Desolation and fear is crawling around  
Cause the emperors back and he will attack!

Inevitable conflict's raising  
You'll never thrust again  
All your friends around you  
You'll never see again  
You think - you're safe no no no way  
Cause the empire strikes

The darkside's back  
The empire  
The darkside's back
