Hear the sound of my wings I have landed
Hear the wolfs cry in the night beautiful
Invite me let me in
Let me kiss you and drink your blood
Invite me let me in
Let me kiss you the kiss of death

I promise you you will be my queen my precious
Come to me we will change you life together
Invite me let me in
Let me kiss you and drink your blood
Invite me let me in
Let me kiss you the kiss of death

Blood of my blood flesh of my flesh
You will be my eternal flame
Blood of my blood

I've lived my life all alone so empty
But when I'm with you you fill my veins with life
Invite me let me in
Let me kiss you and drink your blood
Invite me let me in And give you life

Blood of my blood flesh of my flesh
You will be my eternal flame
Blood of my blood
