We lost our souls  
We have no control  
Like slow-motion shadows  
We are a dream  
White flag - save our souls  
White flag - save our souls  
Loud heartbeat  
We all breathe  
We can't stand no more  
Please  
Silent mouth  
We only dream  
No hands up  
No loud scream  
White flag - save our souls  
White flag - save our souls  
Thousand horror scenes  
On the color screen  
Have to be quiet  
And only dream  
No hands up  
No loud scream  
White flag - save our souls  
White flag - save our souls
