Yes we are back in town
and we are honour-bound.
We are still painted blood
and we don't give a fuck!

We are unbroken,
the blood god is awoken.
We bring the sound
to the killing ground!

We have the groove
and nothing left to lose!
Armed with instruments of war,
painted red with virgin's gore!

Germany!
Germany!
Germany's next Death Metal!

We stand together!
We are blood brothers!
We are lords of battle!
We are addicted to Death Metal!

We kill with axes and the chainsaw!
We are here, live and raw!
We are evil demons of war!
Obsessed by fucking gore!

We are dressed in black and blood!
We are the slayer of the fuckin' sluts!
We are the zombie horde of death!
We are full of anger and wrath!

Germany!
Germany!
Germany's next Death Metal!

Deutschlands Todesmetall Kriegsmachine!
