I will tear your guts out  
I will eat your heart  
Car crashed, bodies flying  
I see the wounded dying  
No regret, no crime, no sin  
Let's feed on another self-slaughtered victim  
Own children roasted in the heart  
Mutilated carcass - Bloodbath  
Eating skin and bones, parts of brain  
Like Hannibal, the cannibal, the insane

I will rape and murder  
Torture...Murder...Torture

Murdering, killing, maiming, slaughtering  
Butchering, hanging, crippling, raping  
Ripping, tearing, crying, dying  
Murdering, killing, maiming, and laughing  
I will tear your guts out - I will eat your heart  
I will kill your father - Your mother is a bitch  
Satan rapes your daughter - Burn this fucking witch  
Bastard ripped open, time for castrating  
The genitals given animal hatchlings for feeding  
A spiked club running up into your anus  
You are sentenced to suffer from us

I will rape and murder  
Torture...Murder...Torture  
I will tear your guts out, bitch
