Fire incoming - go, go forward at centre - weapon rating 250

Give suppressing fire move scum

We rip apart

We spill blood

We are gore obsessed

And from demons possessed

We are the warriors of Chaos

We spill blood for the lord

For the blood rip apart

We take your skull with axes

Die carving blood, die fucker

In the charnel house of the bloodsuckers

Your head will end as a trophy

Decorated with the intestines of your body

We rip apart - we spill blood

We rip apart - we spill blood

Blood for the blood god

We are damned and demon possessed

We stormed the Imperial Palace

For glory, gore and our god

10 thousand years of slaughter

10 thousand years of butchery

Billions beheaded with axes

A thousand worlds burning in the war

We rip apart - we spill blood

We rip apart - we spill blood

Blood for the blood god

We are damned and demon possessed

We give them the mercy of death

We gonna take their skulls

In this land overflowing with blood

Kill maim burn...
