

Debauchery "Take My Pain"

Greetings from my soul
Where all is dark and foul
Violent self-destruction
It's the only perfect option
Forward through the trenchline
When the bullet hits my spine
Jump before the train
It will not only crush my brain

Kill me - Take my pain

Murder and suicide
That's the blessed hellride
Murder and wrath
It's my final breath
Arteries cut open
Or I burn myself in an oven
I get myself hanging
Or from a bridge springing

Kill me - Take my pain

This is the final chapter
Time for death's stalking raptor
It's the final hour
Time for maggots to devour
All the pain is gone away
There is nothing more to say
Now all my life is spent
And I'm finally dead in the end
