"School For Scandal"

There's a new generation of analysts who rose to the  
top like cream  
They're tearin' down the senses and building to a  
scream  
They're puttin' up a school for scandal  
I can't listen anymore  
Settin' up a school for scandal  
Bash my head against a wall

Plans were laid  
Plots have thickened  
Objections raised  
Pulses quickened  
Today's the day  
How long you waited  
Finally, you're graduated

Disgrace  
What a waste!  
Fill your mouth, stuff your face  
Eat them all a bloody taste  
It's a school for scandal

The devil's dick is hard to handle  
Forget about the golden rule  
Keep lookin' for a foot to land on  
Step into the scandal school  
They're puttin' up a school for scandal  
I can't listen anymore  
They're settin' up a school for scandal  
Bash my head against a wall

Plans were laid  
Plots have thickened  
Objections raised  
Pulses quickened  
Today's the day  
How long you waited  
Finally, you're graduated

Disgrace  
What a waste!  
Fill your mouth, stuff your face  
Eat them all a bloody taste  
It's a school for scandal

Plans were laid  
Plots have thickened  
Objections raised  
Pulses quickened  
Today's the day  
How long you waited  
Finally, you're graduated  
Disgrace  
What a waste!  
Fill your mouth, stuff your face  
Eat them all a bloody taste  
You're disgraced  
What a waste!  
Fill your mouth, stuff your face  
Eat them all a bloody taste  
You're disgraced  
What a waste!  
It's a school for scandal

Scandal dies, if you approve  
Talking trash, full of blues  
How it started, it's your tale  
From the pack of lies, what will you choose
