Far beyond the stars
My soul is longing to go
Where beyond the stars
To a better place I know
To the darkest night
I can see the heavenly glow
Far away, far away, beyond the stars
Far away, far away, beyond the stars.

Time ages of time, yet is my time so dear,
The bells hasten to chime warning the hour is near,
The road leads far away and soon the days disappear,
And I sing, Alleluia,
And to Him, Alleluia.

Far beyond the stars
My soul is longing to go
Where beyond the stars
To a better place I know
To the darkest night
I can see the heavenly glow
Far away, far away, beyond the stars
Far away, far away, beyond the stars.

To the darkest night
I can see the heavenly glow
Far away, far away, beyond the stars
Far away, far away, beyond the stars.
