A lonely night by candle light
I try to meditate
But nothing takes my mind off of you
I try to lie to myself
Believing that I'm someone else
That I could easily erase you from my heart

But how could I
When all I see is what I've become of we
Should I try to shed you off like an old skin
I hear your voice inside my head
Calling my name
I remember how good you felt

I'm here alone
Waking up to a new world
A world beyond my shallow pain me on it stains
I hear your voice
Is you that won't leave me a choice, you know
A broken heart will never be the same
You don't belong into my world
You never dove inside of it
You won't listen to my unspoken words

Cosa posso fare
Si il unico pensiero che ho sei tu
Perche quando sono con te non sono piu io
Ti voglio tanto bene
Sono come una bambina che non piace dormire al buio
Un cucciolo abbandonato nella fredda notte
Canzone per tutte sin sa cantante
Il cielo senza le piu belle stelle
Quando tu non ci sei

But how could I
When all I see is what I've become of we
Should I try to shed you off like an old skin
I hear your voice inside my head
Calling my name
I remember how good you felt

I'm here alone

So many things is in the one
Has grouped beyond my shallows can be on my sense
I hear your voice
Is you that won't leave me a choice, you know
A broken heart will never be the same
You don't belong into my world
You never dove inside of it
You won't listen to my unspoken words

Cosa posso fare
Si il unico pensiÃ"ro che ho sei tu
Ti voglio tanto bene
