Don't you worry love is on the way
As we lay we'll rock the night away

I know you miss me and I've been missing you. Before
you
know it, I'll be right there next to you. No matter the
distance
You're still in my heart. Baby I'm with you even though
we're
far apart so don't worry.

Chorus: Don't you worry love is on the way (I really miss
you)
As we lay we'll rock the night away (Things just aint the
time and place)
2X

I'm never too busy when it comes to loving you. I'm
gonna be
there cause I have plans for me and you.
Hide away in a secret place the two of us alone again
A special place where all our love begins (So don't you
worry)

Chorus:

Hide away (I'll be lonely babe, hide away late at night
babe)
A special place where all our love begins (That's where
our love
begins, that's where our love begins)

Chorus
Repeat till fade
