I can't believe that a year has passed
It seems like yesterday in September

We started off as the best of friends
No intention of falling in love again
He held me there in my time of need
My heart was set free
What a sweet memory

[Chorus:]

The day I fell in love
It was so beautiful
His hands, his tender touch
I remember the day in September
When we fell in love

It was an unexpected night
The sun was somewhere, but out of sight
So familiar, yet unexplored and new
We surrendered to our love in bloom

[Chorus]

I couldn't believe it was love
The passion we felt between us
The warmth of your touch
'Twas a night to remember
On the day we fell in love in September

[Chorus]

I couldn't believe it was love
The passion we felt between us
The warmth of your touch
'Twas a night to remember
On the day we fell in love in September

[Chorus]
