I've been down that road  
Holdin' my ground and it kills me  
Cause you're so cool to be around, when you're around  
But I think you've lost you  
And I think of other lovers lost  
And the soul wrenching cost  
And I'd rather have you in my life, yeah  
Feeling down, but empowered just the same  
High on the pain that I'm saying no to  
Don't wanna be another lesson learned  
Another stripe you've earned  
So good-bye  
Sometimes the light just fades  
Yeah, the ball of yarn that just runs out  
And you hold on for dear life  
Coming from a place of doubt  
Sometimes the light just fades  
Yeah, the ball of yarn just runs out  
And you hold on for dear life  
Coming from a place of doubt  
Chorus:  
Well I've been down that road once or twice before,  
once or twice before  
I ain't goin' there again  
You can't take me there  
I won't follow you  
I will walk away  
While I still can call you a friend  
Led me down the garden path  
Then who's left with the aftermath  
And it doesn't add up  
It's a mixed equation  
Was in for the long haul Yeah, you were my all-in-all  
Guess I was your recreation  
Sometimes you swim and swim, expecting to see  
something more  
And your whole soul gives out, before you reach the  
shore  
Sometimes you swim and you see nothing more  
And your whole soul gives out before you reach the  
shore.  
Chorus...To some bitter bitter end

Woah....Woah....  
Bridge:  
Soothing music plays  
Used to think of our someday  
When there was a someday  
But it came too soon  
Soothing music plays  
Used to think of our someday  
When there was a someday  
But it came too soon  
Just as well...  
Chorus
