You, you got me in trouble
What you gonna do about it
You, you got me in trouble
What you gonna do, whoh
One end tired to your finger
For remembering
Who's the one who like to tease his kitten
At the other end of the string
But whatever it is
You got the biz
I can't reziz
You, you got me in trouble
What you gonna do about it
You, you got me in trouble
What you gonna do, whoh
Two lines out to the life boats

Your line's holding me
Can't ya see that I'm counting on you
While you're doing a number on me
Divided by three
You're the singular
Something I need
You, you got me in trouble
What you gonna do about it
You, you got me in trouble
What you gonna do, whoh
Don't care if it's new
Or even used in moderation
Don't care if it's first
Or even second generation
