We two in this boat shall row
What direction love will grow
As a kiss unfolds
Only love knows
Can't find it in any book
They don't know what you mean
When you look at me that way
Only love knows
And who are they to tell us
We can't move the stars
One day we just fell in like
Now I love where we are
Ooh, ooh, ooh, ooh... Only love knows
Ooh, ooh, ooh, ooh... Only love knows
This moment it feels so right
To hold you beyond tonight
What tomorrow brings
Only love knows
And who are they to tell us
We can't move the stars
One day we just fell in like
Now I love where we are
Ooh, ooh, ooh, ooh... Only love knows
Ooh, ooh, ooh, ooh... Only love knows
We two in this boat shall row
Moon is high and the tide is low
What a heart can hold
Only love knows
Ooh, ooh, ooh, ooh... Only love knows
Ooh, ooh, ooh, ooh... Only love knows
