### "Nine Steps"

When the warriors of the gloom came  
When the wolf of the night conquered the sun  
Time of revenge and death set in  
The sons of fire she'd the blood of gods  
Nine steps towards victory of the night  
Nine steps to the comeback of chaos  
Nine steps to eternal darkness  
Nine steps to death  
When the time of the northern rulers was over  
Like a drop of blood in the sea of eternity  
Thors blood sealed up their end  
The dusk of gods set in  
But their names will never be forgotten  
The memory of these centuries will never pass away  
Thors blood still flows in the northern rivers  
Thors hamer will she'd the fresh blood again
