Fetid copro, repulse
Dissected, mutilage
Abhorrent, scalpel, carnage
Stenching, rancid bowel juices
Mixed with deep red and dark piss
Excrement and cranio decorated, blastomed phallus

Inducing nausea, causes vomiting
Sickness awaking reek

In the dusks, sights of necrocannibalism
Reek of shit, faecalized
Morbid molestation in the bloody hole
Lustful stabs around the cunt

Sodomized, fucked, raped and defiled

Bloody mush, splattered with sperm
Blasphemous enjoyment of gore

Inhumed

Lower bowel injected, infested by insects

Entering from the rectum, eating to the lower body
Reaching the scalped cuts, around the stomach
Providing easy access, in morbid lust
Maggots seep in the womb

Intestines and guts being devoured and consumed
Fermenting tissues digested
Rotting torso collapses
Hollowed out, empty corpus

Guts grinded, swarming around the lower bowel
Eating, feasting of the vile
Dilated abscesses bled dry, covered with excrements
Urine smeared, cranio decorated

Colonized
