Grinding flesh between my teeth  
Munching rotting genitals  
Ribcage carved and split wide open  
Lungs and heart removed

Feasting necrocannibalism, cannibal consuming

Vulgarly crushed, cadaver lying disfigured  
Cranial region exploded, exposing the vomitous  
insides  
Repulsive brain slime, painting the room  
Horrific ulcerated faeces, decorated tomb

Vomitorium

Stink, reeking, meat eating, vomiting  
Sickness, love for others  
Dead bodies, cadavers decomposing

Rotting bowels
