Abhor the disfigured  
Mentally deformed epidemic  
Infectious rotten blood  
Spasmic larvae swarming in the rotting

Fresh grave, wide open  
Orally excreting, nausea  
Regurgitate, vomiting gore  
Pouring, gushing red

Venomous slime corrodes eyelids  
Eyeballs are dried up  
Fermenting, flesh shedding

Corpse...  
Rotting...  
Rising...

Maggots swarming feasting, meat rotten and purulent  
Devourment and digestion, in the stomach  
Flies take parts, swallow the pus  
Digesting, then regurgitating the rotting parts
