Strikes you in the back  
Holds you down in flames  
Burn your souls for him

He is the master of hell  
Bringer of torture  
He is the master of hell  
Raise your horns

Death dressed in black  
Hell of a killer  
Reaper of the night  
Killer of the light

He is the master of hell  
Bringer of torture  
He is the master of hell  
Raise your horns

Hell fire hell  
Coming down on you  
Coming down on me  
Hell fire hell  
Coming down on you  
Coming down on me

Strikes you in the back  
Holds you down in flames  
Burn your souls for him

He is the master of hell  
Bringer of torture  
He is the master of hell  
Raise your horns

I'm evil so burn me  
The fire will never cleanse my soul
