[Hook]

Get money, don't be no lame  
Bench warmers never ride foreign, so play the game  
Never drop the ball, never accept a loss, get back up if  
you fall  
And when your number called, you better give your all  
I hope you give your all  
You gotta play until the end  
The only difference between a winner and a loser is a  
winner plays until he wins

[Verse 1]

Ain't nothing for free so get your ass up  
My partner said if we don't speed then they might  
pass us  
So we hit 85, tryna keep this dream alive  
All I see is green, I think these screens is f\*cking with  
my sight  
Nowadays hoes claiming that they crushin'  
Bop a darling in my bucket 'til their heads catch  
concussions  
But please don't push my buttons, I don't know  
you like that  
Can't do no favors for these haters, I don't owe  
you like that  
Well I guess it's the allure like when you need to  
score  
One second on the clock and the shot's all yours  
Hit or miss, we take the risk  
Cause anything is better than viennas and warm grits  
Trading bust it babies for fly divas that buck  
Her only concern is if my car match her clutch  
Yeah she a gold digger but that pussy good  
So what the f\*ck, don't be late for this player's  
ball  
Hurry up and...

[Hook]

Get money, don't be no lame  
Bench warmers never ride foreign, so play the game  
Never drop the ball, never accept a loss, get back up if  
you fall

And when your number called, you better give your all  
I hope you give your all  
You gotta play until the end  
The only difference between a winner and a loser is a  
winner plays until he wins

[Verse 2]

They told me life is what you make it  
So what you been creating on your free time?  
I'll lend you bars if you need rhyme or reason  
Some people change, it's a part of life like  
seasons  
Just be aware that everybody ain't your friend  
They'll be gone with the wind once your jumpshot  
don't go in  
Or your ACL torn and you're a couple yards short  
From a Super Bowl Championship and it was down 4  
Gotta play the field, be willing to ride, willing to dive  
For what you desire, call your pop fly, but never collide  
With other players that play the game  
Don't be eager to run with crowds, stay in your lane  
Pass the knowledge on to your team, but carry the  
flame  
Cause it's yours and yours alone to brighten your  
way  
Put God first and free your soul  
Cause even Olympic runners sometimes lose their gold  
So...

[Hook]

Get money, don't be no lame  
Bench warmers never ride foreign, so play the game  
Never drop the ball, never accept a loss, get back up if  
you fall  
And when your number called, you better give your all  
I hope you give your all  
You gotta play until the end  
The only difference between a winner and a loser is a  
winner plays until he wins
